Web Site Development

One of the areas we specialize in is, to assist businesses in establishing an effective "store front" presence on the Internet. We design Web Sites to fit all budgets. Here's what we have to offer:

- Design your Web Site from start to finish.
- Import, create or edit your pictures, graphics and company logo.
- Aggressively advertise your Web Site to all the major search engines.
- Set up your email and other accounts.
- Provide a secure shopping cart so that users can purchase items on-line.
- Easy to use - Content management system to edit products for your shopping cart.
- Provide affordable Web Site maintenance.
- Host your Web Site.

Packages include:

1) **Basic Web Site** — \$600

6 pages total, up to 20 graphics, free search engine submission, free domain name registration (www.yourname.com), 24/7 support

2) **Single Page Web Site** — \$195

1 web page, up to 4 graphics, free search engine submission, free domain name registration (www.yourname.com), 24/7 support

3) **Custom Web Sites** - Prices vary

eCommerce, Database Driven, Information Sites - any type of Web Sites.
We do it all.

We connect you to the world!

**We Design it! We Host it!
We Maintain it! We Market it!**

Business Solutions

Custom Software Development

At Mediaknack, we have a highly skilled team of software engineers that have many years of experience and can write custom programs for any platform. Our software is customized to your specifications. By using our library of software routines, we can create your application in no time. Here are some of the things we can do for you:

Microsoft Certified Software Engineers

- Custom Business Software Solutions
- Database Architecture and Design
- Content Management Systems
- Professional CD-ROM Presentations

Whether you need a database driven software solution for your business or, a professional multi-platform, multimedia presentation that you can give your clients on CD-ROM, we get the job done.

We are so confident in the quality of our software that we back it up with a one year guarantee. If you have any problems with the software within a year from when it is delivered, we will fix the problems free of charge.

IT Consulting Services

In addition to our web design and software services, we are also available for your Business Consulting needs. From concept to launch, we have the tools, contacts, and know-how that you need to get your project off the ground and launched properly. If you already have a development team, we can work as an extension to your in-house

development team. We can help you implement complete solutions quickly and cost-effectively.

IT Training

We also offer IT Training services. We can train your employees in various technologies. Such as C++, VC++, Visual Basic, .NET, COM, HTML, Database Design, PHP, ASP, etc... We offer on-site training services. Call for group rates.
